Measuring Success by Customer Satisfaction

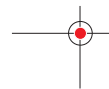

walk behind concrete saw

▶▶ SP2 WALK BEHIND CONCRETE SAW

An exceptional saw for its size, the SP2 is built to cover a wide range of cutting applications. With a 20Hp Honda GX630 electric start engine and a blade capacity of 508mm, the SP2's strong, box type frame maintains its integrity, giving smooth superior performance and increased blade life. This unit also boasts a built in water tank for dust control while dry cutting.

Features:

- Strong box type frame
- Adjustable height handle bar with cushion grips
- Hinged front blade guard
- Front pointer roller bearing wheels
- Built in water tank for dust control while dry cutting
- Industrial blade shaft assembly
- Trusted Hydrostatic Transmission for easy FWD / REV propulsion
