Measuring Success by Customer

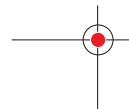

# high pressure cleaning systems

## ▶▶ H18/200 HIGH PRESSURE CLEANING SYSTEMS

The Ian Dickie H18/200 has ample power for use in a wide variety of cleaning applications such as equipment cleaning, grease removal, cleaning of paving, removal of graffiti, abattoirs, car washes and much more. The unit can also be utilized for wet sandblasting of steel and concrete. Driven by a petrol engine the H18/200 delivers 18 litres per minute at 200 bars of pressure. The trigger operated 900mm lance can be fitted with hardened fan or jet nozzles and the unit can be supplied with 10m or 20m of high pressure hose. With two solid rubber tyred wheels and a robust steel chassis the H18/200 is capable of handling the toughest cleaning tasks, efficiently and effectively.

### Features:

- Interpump heavy duty triplex plunger pumps
- Unloader valve system
- In-line filter, (easy to clean)
- Trigger operated gun
- 900mm lance
- Hardened fan or jet nozzles
- Glycerine filled pressure gauge
- Robust steel chassis
- Two solid rubber tyred wheels
- 10m High pressure hose
- Hose storage rack
- D.O.L. starter on electric models
- Complete technical and spares support
