# welder generator

## ▶▶ ID200W WELDER / GENERATOR

The Ian Dickie ID200W Welder / Generator is portable and convenient for on-site repairs and outdoor maintenance on farms, construction sites etc. Welder Generators are specifically manufactured to provide reliable power for your welding equipment without the need to rely on mains electricity, but can also operate as a conventional generator for powering work lights, power tools etc.

This unit is supplied complete with cables, chipping hammer and welding mask.
