reversible plate compactors

▶▶ RPC 30/50 REVERSIBLE PLATE COMPACTOR

The RPC 30/50 is a compact reversible plate compactor offering a centrifugal force of 30kN. Speed and compaction depth are adjusted through hydraulic control of the eccentric element which gives the plate smooth motion and makes it easy to operate.

The RPC 30/50 is a robust, general plate for compaction work close to piles and concrete bases. Excellent for floor fillings, foundations, road repairs as well as backfill in pipe trenches.

Features:

- Low weight with high compaction force
- Compact machines with high performance and compaction results
- Petrol or diesel engine options
- High frequency vibrating element 95Hz
- Excellent ergonomoy and low hand arm vibrations minimize operator fatigue
- User and service friendly
- Large centrally placed lifting hook
- Foldable handle minimizes size for transport and storage

Specifications:

Model	RPC30/50	RPC30/50 D
Engine Power (hp/kW)	Honda GX 160 Petrol - 5.5 / 4.0	Hatz 1B20 Diesel - 4.2 / 3.1
Plate size WxL (mm)	500 x 695	500 x 695
Centrifugal Force (kN)	30	30
Frequency (hz)	95	95
Travel Speed (m/min)	24-26	24-26
Weight (kg)	161	174
