vibratory truss screed

▶▶ IAN DICKIE “BLITZSCREED” VIBRATORY TRUSS SCREED

Blitzscreed is the state of the art in vibratory truss screeds. The Blitzscreed is set up and cleaned in roughly half the time of other screeds and it's all bolted construction eliminates weld failure. The Blitzscreed boasts a patented offset eccentric shaft/bearing design resulting in uniform vibration and extended bearing life as well as a patented quick coupling feature.

The quick coupling method of joining section shafts is fast and eliminates failure of mechanical connectors. Precision machined, cast A-frames handle stresses in all planes and serve as a built-in fixture for maintaining perfect screed alignment throughout the life of the product.

Blitzscreed sections can be combined to product screeds up to 75 feet. Available in petrol driven or pneumatic as well as hand or auto winch options.

Features:

- Patented quick coupling
- Patented offset eccentric shaft bearing design
- Auto or hand winch option
- Petrol or pneumatic

Specifications:

Model	MVS2	MVS4	MVS8
Length .	0.71m	1.32m	2.54m
Width	38cm	38cm	38cm
Height	41cm	41cm	41cm
Weight per foot	4.7kg	4kg	3.6kg
Vibration	2600vpm	2600vpm	2600vpm
