# high velocity jet cleaners

## ▶▶ IAN DICKIE HIGH VELOCITY JET CLEANERS

When used in conjunction with our state of the art \*Enz High Pressure Nozzles, Ian Dickie's **PX Range** of High Velocity Jet Cleaners quickly and effectively remove, sand, sludge, roots, concrete and other difficult blockages in sewer/drain pipes and storm-water culverts. These powerful machines boast flow rates up to 267 L/min at 120 Bar, making them ideal for numerous other industrial applications. Our larger units have the capacity to effectively clear pipes up to 1000mm in diameter.

### Features:

- Trailer mounted
- Polyethylene breaker tank sized to requirements
- High quality triplex plunger pump
- In-line filter for contaminated water
- Electric start diesel engine
- Hydraulically operated hose reel
- Lightweight reinforced sewer hose
- Operator friendly control panel.

**Peta Jet  
PX 226/120**
