# mobile solar light tower

## ▶▶ IAN DICKIE MOBILE SOLAR LIGHT TOWER

The Ian Dickie Solar Light Towers are robust, easy to operate, lightweight and portable. These towable units are particularly effective for noise sensitive applications as they provide silent, bright, energy efficient lighting using batteries charged via an adjustable solar panel. Ideal for special events, construction sites, security and many other applications where on-demand lighting is required. This system provides cost-effective bright white LED lighting without any of the disadvantages associated with traditional diesel lighting systems, such as high operating costs (diesel fuel, maintenance, labour) as well as carbon emissions, noise etc.

### Features:

- bright energy-efficient LED lights
- 5.5m rotatable telescopic mast
- silent operation
- battery powered
- automatic solar charging
- mounted on high speed trailer
- extendable stabilizer legs
- maintenance-free batteries
- adjustable-tilt solar panel array
- low maintenance
- emission free

### Applications:

- special events
- construction
- oil and gas
- road repair and maintenance
- emergency response
- civil defense and airports
- military police applications
- outdoor events
- rural/agricultural sites
- mining
