high pressure jetting nozzles

▶▶ Rotodrill HIGH PRESSURE JETTING NOZZLE FOR LOWER VOLUME JETTERS

The NEW Rotodrill 3/8" and 1/4" represents Swiss Technology and innovation at its finest. The Rotodrill High Pressure Jetting nozzle has been specifically designed for effective removal of sludge deposits, fine root clusters and clogs using LOWER VOLUME JETTING MACHINES. Thanks to its cone-shaped rotating front jet, this formidable product easily mills through clogs and root clusters in one operation, a challenge that might previously have been impossible for plumbers and drainage contractors using lower volume jetting machines!

Features:

- Swiss made, ISO Certified
- High cleaning performance
- Low water consumption
- International market leaders.

Specifications:

Model	Rotodrill 1/4"	Rotodrill 3/8"
Application range (mm)	40 – 100	50 – 150
Max pressure (Bar)	350	350

“THE ROTODRILL IS A GAME CHANGER FOR PLUMBERS WANTING TO CLEAR PIPES OF FINE ROOT CLUSTERS USING LOWER VOLUME JETTING MACHINES” - Brad Gie Sales Manager
